

Do NOT raise the limits on how much an individual / corporation can own in any particular market.

It is in the best interests of the public, which you are charged to representing - not the media owners now and future, and for our democracy - I mean the United States of America, that money DOES NOT determine what news and opinion is available to me on THE PUBLIC AIRWAVES.

There must be limits, that disallow any individual or corporation, to create an information dictatorship by using our public airwaves.
